Description

Topic: The panel entitled "Transformation of Higher Education" aims to define strategic directions for the development of higher education in Serbia and neighboring countries.

Objectives: The panel aims to define responses to the challenges of modern higher education such as:

- Cooperation with the economy in the development of higher education programs
- Multidisciplinary and transdisciplinary study programs
- Financing higher education
- Digitization of higher education
- Influence of COVID-19 on the realization of teaching and scientific research
- Advantages and disadvantages of distance learning
- Publishing the results of scientific research and publishing
- Promoting sustainability in higher education programs.

Format: Round table with panelists and moderators

Panelists: representatives of universities (rectors and deans), representatives of the relevant Ministry, representatives of the Science Fund
